EL-CC-1-001 / LASREC030
Cold Chain Data Logging Solutions

EL EasyLog

- ### Data Logger For Chilled Goods

- No set-up required. One button press-to-start logging.
- Pre-configured with appropriate sample rates and alarm thresholds for each application.
- Reusable with 12+ months battery life.
- Various export options including PDF, Microsoft Excel and JPEG.

Each of the three Cold Chain loggers comes pre-configured for use in your particular application – simply press the button to start logging. During a logging session, pressing the button will light up the status LEDs to give a quick indication as to whether the temperature has exceeded an alarm condition at any point. Once your session has been completed, tear open the IP67-rated plastic wallet to reveal the USB connector and plug it in to your PC. Use the free EasyLog CC software for Windows to download and graph the data, and then prime your logger for its next use.
EasyLog CC Software

The simple-to-use software allows you to view the data graphically, in a table or export it in various formats for use in further reporting.

Download the latest version of the software free of charge
